|  | <p>1. 제휴 대학에서의 초기 생활적응 (기후, 지리적 위치, 생활관련 사항):<br/>                 St. Louis is a great place to study, especially during the fall semester as the weather is mild and content. I would recommend St. Louis to those students who speak fluent English and have no trouble understanding the language. As St. Louis is located in the Midwest, SLU is part of the conservative mindset that exists as part of the St. Louis region.</p> <p>2. 제휴 대학 전반적인 교육의 질에 대한 인상<br/>                 SLU teaches its students to be well-rounded and holistic. I highly admired the friendly and kind staffs who were willing to help me adjust to St. Louis.</p> <p>3. 수강신청 및 이수에 대한 경험, 평가, 후배를 위한 제안<br/>                 I enrolled in courses that will help me develop my self-awareness and courses that were highly ranked. I wanted to experience why SLU was highly ranked for international business and supply chain management and I believe SLU deserves the high rank from the great quality of teaching by experienced professors.</p> <p>4. 기숙사 또는 아파트 및 음식에 대한 평가, 제안 등<br/>                 Accommodation was great. I lived in the Village Apartments with 3 other roommates from India, and the U.S. We had a kitchen in our dormitory along with laundry. Although the dormitory was considered expensive, the amenities, and the utility bills were all included without any inconveniences.</p> <p>5. 기타 활동에 대한 경험담<br/>                 I was highly active as I wanted to experience the most of St. Louis. I worked for the World Trade Center St. Louis as a Development Assistant, attended various networking events, and participated in various cultural events.</p> <p>6. 비자, 출·입국, 기타 해외생활에 대한 정보<br/>                 I made my visa one month before departure from South Korea. Immigration was straightforward. I researched about St. Louis before my departure.</p> <p>7. 교환학생 프로그램에 대한 전반적인 의견<br/>                 I had a phenomenal time in St. Louis. I have met great people and made great friends who I will contact in the future. I'm glad to have experienced St. Louis because I became more aware of myself and know where I belong.</p> <p>8. 후배들에게 하고 싶은 말<br/>                 I would like to recommend those who are interested in studying abroad to be</p> |
|--|--|

prepared. Why do you want to go on the exchange program? The exchange program will only be beneficial if you are prepared and ready for change. St. Louis is very conservative. Be prepared. Be positive. Be ready for change and open-minded.
