## Overview of Academic Rules and Regulations for the 2016 Calendar Year

### ■ Objective

KDI School of Public Policy and Management has revised its Academic Rules and Regulations for the 2016 calendar year. We provide the following detailed information so that students have no difficulties in successfully completing their academic programs.

1. (Program Chair & Academic Advisor) Students will be guided on General School Life by the Program Chair and their academic advisor, who will be pleased to supervise students. Each administrative division will also help students adjust to life on campus.
2. (Personal Information) For the School to take proper care, students have to update their personal information through the website ([mis.kdischool.ac.kr](http://mis.kdischool.ac.kr)).
3. (Notice) All academic information and forms can be downloaded from the website. Since the School is not responsible for informing each student of every notice, it is students' responsibility to pay close attention to the Notice Board as well as the Student Message Board on the school website.
4. (Regulation Change) When occasion demands, the rules and regulations for the 2016 may substantively change upon the School Executive Committee's approval, which will soon be notified and made official.

## I. Courses and Research Projects

All courses are classified into three categories. Please refer to the following description for further categorization of courses. These names will be used throughout the year and it is important that you remember these names to avoid any confusion.

Course Category		Remarks
1. Regular Courses	1-A. Core Courses	Mandatory courses for each program
	1-B. Concentration Courses	Other regular courses in each concentration
	1-C. Research Projects	Thesis, Capstone, SRP, ELP
2. Foundation Skill Courses		English, Korean, Chinese language courses
3. Field Research and Study Course		Field Research and Study

## 1. Core Courses

These are courses that have to be taken by students in each program, a total of 2 core courses for MPP & MPM students and 3 core courses for MDP students. These courses are provided only once a year and all students must take them in a given semester unless special provisions have been made between the individual student and the Academic Affairs Division.

## 2. Concentration Courses

Concentration courses consist of courses in one's own concentration and outside one's concentration. Concentration courses outside one's own concentration are NOT acknowledged as one's own concentration courses but only as electives toward the degree. For example, a student with a concentration in FM must complete the required number of FM concentration courses for the MPP program. Courses categorized under a different concentration, such as TI or PF, will be counted as electives toward the student's degree. Please refer to the "Concentration" column in the course list to identify what courses have been classified under which concentration. Please note that only one concentration will be recognized from one course.

## 3. Research Projects: Thesis, Capstone Project, Supervised Research Project[SRP], and Experiential Learning Project[ELP]

### Formation of POS Committee

Students are required to form a Program of Study Committee (hereinafter referred to as "POS Committee") to guide them through their research project. The POS Committee members must be KDI School faculty. For students who write a thesis or a capstone project, the POS Committee must consist of two faculty members: one should be designated as Major Professor and the other Second Professor. When a student submits the final thesis, it will be evaluated by 3 professors including the Committee members and will be graded on a pass/ no pass basis [P/NP] with 3 credits.

**Capstone Project:** Students who want to do a capstone project individually or in a group must take the Advanced Research Seminar[ARS] (3 credits), submit the first draft of the report in the seminar, and give an oral presentation to the POS committee. When a student submits the final report, it will be evaluated by both the POS Committee and his/her host agency, and will be graded on a pass/ no pass basis [P/NP] with 3 credits.

**Supervised Research Project [SRP]:** Students who want to do a Supervised Research Project need to submit a project plan to his/her supervisor. When a student completes the final report of the project, it will be evaluated by his/her supervisor, and will be graded on a pass/ no pass basis [P/NP] with 3 credits.

**Experiential Learning Project [ELP](GMP students only):** GMP students can do an Experiential Learning Project (1 credit) during his/her study in a partner school. # Course Registration

## 1. Course Registration

- ① **Minimum/Maximum Credit Application:** Full time students must apply for a minimum of 9 credits and a maximum of 15 credits of regular courses including one day-time course in each semester, unless they submit a petition with a detailed study plan for approval of 18 credits of regular courses. The petition form is available under the “Official Forms” heading on KDI School Members website.

Part time students must apply for a minimum of 6 credits and a maximum of 12 credits each semester to graduate in 6 semesters.

- ② **Consultation for Course Selection:** All students must consult with their advisors before selecting courses.

<Program Chair>

Program	Office	Program Chair
Ph.D.	S336	YOU, Jongil
MPP	S331	CHOI, Changyong
MDP	S347	KIM, Dong-Young
MPM	S441	Kim, Soonhee

- ③ **Registration Period:** Students should register for their courses during the designated period.
- ④ **Methods of Registration:** Students may only register for courses online. Please refer to the “How to Register for Courses” section for further information.
- ⑤ **Course Size:** KDI School limits the number of students in each class in order to maximize the quality of learning. For concentration courses, course capacity is set at a minimum of 6 students; for core courses, the number of students can exceed 30. Please remember that course registration is done on a first-come first-serve basis, and once a course is full students will not be able to register online. If a course has less than 6 students it will not be offered in that particular semester.

※ **Note:** Given the limitation on course size, some students tend to register first and cancel later if they decide not to take the course. This kind of behavior takes away spaces from those students who are

serious about taking a particular course and causes inconvenience not only to the students but also the administration. We would like to urge students, therefore, to choose their courses carefully and make sure that they register for the appropriate number of credits for a given semester.

- ⑥ **Registration Confirmation:** Once a student has finish the course registration, he/she needs to make sure that the registration has been completed and confirm the courses before attending the classes by checking the course confirmation menu in the school MIS.
- ⑦ **Add/Drop Period:** Registration changes are only allowed within the first week after classes begin. This is to ensure that classes run smoothly and students adapt to the environment as quickly as possible. After this period, students may not change their course registration. Please consult with the designated academic advisor or instructor for information and advice before making any changes. Attendance will count during the add/drop period.
- ⑧ **Course Drop (with form):** Should the student decide to drop a course within the first five weeks after classes begin, he/she may fill out the course drop form and submit it to the Academic Affairs Division to drop a course. In this case, the cancellation will not appear on the official transcript.
- ⑨ **Course Withdrawal (with form):** Should the student decide to withdraw from a class after the first five weeks but within the first ten weeks after classes begin, he/she may fill out the withdrawal form and submit it to the Academic Affairs Division to withdraw from the class. In this case, a “W” will appear on the official transcript; however, it will not affect the GPA.
- ⑩ **Attendance:** Students are required to attend at least 5/6 of each course in a given semester. In the event of an emergency, students should submit an application for absence and obtain approval from their course professor. Students must attend a minimum of 5/6 of each course they are enrolled in to receive credits and grades for the courses.

## 2. Course Presentation Session (CPS)

- ① Introduction to Course Presentation Session:
  - The Course Presentation Session (hereafter CPS) aims to assist students in course registration for the 2016 Spring Semester.
  - CPS is an explanatory session for the courses to be offered in the upcoming semester.
  - Professors and students who intend to register in the courses presented during the CPS are asked to attend at the designated time and venue.

- CPS consists of a course introduction and a Q&A session in a room designated by the Academic Affairs Division.

# Grading

## 1. Acknowledgement of Credits

- ① **Registration:** Credits are only given for courses for which students have officially registered through standard registration procedures. Students auditing courses will not receive credits.
- ② **Attendance:** All students must attend at least 5/6 of all classes in a given semester to receive credits for that course.

## 2. Grading System & GPA

Students are graded according to the following system. “W” and “IW” are recorded on the transcript but are not counted towards the GPA.

Grade	A	A-	B+	B	B-	C+	C	C-	T	I	W	IW	F
Points	4.00	3.67	3.33	3.00	2.67	2.33	2.00	1.67	-	-	-	-	0.00

- ① **“T”:** An “T” stands for “*Incomplete*” and is given to students who have not completed their course requirements by failing to submit assignments, reports, papers, and/or missed tests. It is up to the instructor to give an “T” to students who did not meet the requirements; however, students who received an “T” must be graded no later than four weeks after all grades are submitted to the Academic Affairs Division. The maximum grade that can be achieved is an A-. If grades are not received by the Academic Affairs Division by this time, an “IW” will appear on the student’s transcript permanently. Students who receive “T” grade will not be awarded scholarship for Academic Excellence.
- ② **“W”:** A “W” stands for “*Withdrawal*” and is given to students who withdraw from a class(es) within the first five to ten weeks after classes begin.
- ③ **“IW”:** An “IW” stands for “*Incomplete Withdrawal*” and is given to students who failed to receive a grade within the four weeks after receiving an “T” grade.
- ④ **“T”:** A “T” stands for “*Transfer*” and indicates a course in which a student has successfully received KDI School credit for coursework completed through an exchange or GMP Program.

### 3. Transcripts

- ① **Transcripts:** Students can see their grades online. Students can also receive an official transcript issued by the Academic Affairs Division by connecting to KDI School website and selecting “Certification Request” or sending a completed certificate request form via email at registrar@kdischool.ac.kr. The request form is available under the “Official Forms” heading on KDI School Members website. Refer to the “Certificate Issuance” on page 58.
- ② **Making an Appeal:** Should students have any doubts about their grades, they may make an appeal to their course professor within a given period of each semester. If no appeal is made at this time, the grades will not be changed.

### 4. Academic Probation/Expulsion

- ① **Academic Probation:** Those students whose GPA falls below B- (2.67) shall be placed on an academic probation. So please feel free to use this counseling program as she would be more than happy to assist you.

### **How does this work?**

#### □ *Step 1*

Students may access the program through online and offline meetings with the advisor on an individual basis. In the case of setting up an offline meeting, you must send an e-mail or stop by office #316 and ask to make an appointment. Upon your request, the advisor will set up a schedule for you.

#### □ *Step 2*

As each person is unique, the issues addressed and the approaches used for each student will be tailored for that situation. Given the particular situation, different services and recommendations will be proposed.

### □ *Step 3*

If concerns exceed the scope of the school's focus, or if further services are considered beneficial, the advisor will provide referral services for students needing more intensive treatment and other modalities of care.

## Staying in Korea

### 1 Location<sup>1</sup>

The Korean Peninsula is located in North-East Asia. It is bordered by the Amnok River (Yalu River) to the northwest, separating Korea from China, and the Duman River (Tumen River) to the northeast which separates Korea from both China and Russia. The country itself is flanked by the Yellow Sea to its west and the East Sea to the east. There are several notable islands that surround the country including Jeju-do, Ulleung-do and Dok-do (Liancourt Rocks). The Korean peninsula is roughly 1,030 km (612 miles) long and 175 km (105 miles) wide at its narrowest point. The land area is 99,200 sq km (38,301 square miles), and it has a population of 50 million people (2012). Because of its unique geographical location, Korea is a very viable piece of land and an international hub of Asia.

### 2 Seoul<sup>2</sup>

Seoul, the capital city of Korea, is both a modern metropolis and a repository of Korean culture. All that is required is a little curiosity and an adventurous spirit to discover and appreciate the many things to do and places to visit. Places of interest range from open markets to luxurious department stores, small student-run theatres to world class art centers, and century old palaces to modern high-rises. In addition, Seoul is becoming a more multicultural city and finding various international cuisines requires little effort. Unfortunately, most Koreans are not fluent in English, so if you get lost, or need help with directions, strangers may not always be accommodating. However, more often than not, a kind person will try to help you find your way. Take time to learn about the culture, the people, and make the most of your stay in Korea. You may visit the website <http://www.visitseoul.net/>

### 3 Climate<sup>3</sup>

Korea has four seasons, with a wet monsoon/summer in the middle of the year, and a cold winter from November to March. The island of Jeju off the southern coast is the warmest and wettest place in the country. The most ideal time to visit Korea is during the autumn months (September~November). During this time, the country experiences warm, sunny weather, skies that are cobalt blue and spectacular foliage that is perhaps the biggest draw. Winters are cold and dry and remain a good time if you are interested in winter sports as there are numerous ski resorts. Spring (April~May) is also beautiful with all the cherry blossoms in bloom. However, it is very busy and one needs to book in advance to ensure accommodation is available. The summer months are muggy and hot, and rather crowded. It is also when the monsoon begins so many activities are subject to the fluctuations of heavy rain.

### 4 Food<sup>4</sup>

Of the three basic elements of life — house, clothing and food — the change in dietary habits has most significantly affected Koreans. Rice still remains the staple of most Koreans, but among the younger generations, many prefer Western-style food. Rice has been usually accompanied by various side dishes, mostly seasoned vegetables, soup, pot

stew, and meat. A traditional Korean meal is not complete without kimchi, a mixture of various pickled vegetables such as Chinese cabbage, radish, green onion and cucumber. Certain types of kimchi are made spicy with the addition of red chili pepper powder, while others are prepared without red chili peppers or are soaked in a tasty liquid. However, garlic is always used in kimchi to add to its flavor. In late November or early December, Korean families used to prepare enough kimchi to last the long winter. The kimchi was stored in large clay jars partially buried to maintain temperature and retain flavor. In modern Korea, housewives often don't have time to make kimchi or the outdoor space needed to store large amounts. But kimchi is still a vital part of the Korean lifestyle: companies making the fermented dish and others selling special kimchi refrigerators enjoy brisk sales. In addition to kimchi, doenjang (soybean paste), with its anti-

cancer attributes, has attracted the attention of modern-day nutritionists. Koreans used to make doenjang at home by boiling yellow beans, drying them in the shade, soaking them in salty water, and fermenting them in sunlight. However, only a few families go through this process anymore; the majority buys factory-made doenjang. Among meat dishes, seasoned bulgogi (usually beef) and galbi (beef or pork ribs) are the most favored by both Koreans and foreigners.

### 5 Currency

The unit of Korean currency is the won, usually written as a simple capital W preceding the amount, as ₩1,000. As coins, the won is minted in 10-, 50-, 100-, and 500-won denominations; as banknotes, it is issued in 1,000-, 5,000-, 10,000-, and 50,000won bills. Banks also issue checks in ₩100,000 increments. As with most currencies around the world, the won exchange rate fluctuates, but as of now (Jan., 2016) the rate is approximately 1,176 won to the one U.S. dollar.

## 6 Transportation of Seoul

### Subway

Seoul boasts a highly sophisticated public transportation system which covers most areas of the city and suburbs. The subway is probably the most reliable mode of transportation since signs are written in English, and the trains are usually on time. The subway fare varies according to your point of destination, so be sure to check before purchasing your ticket.

The fare for Zone 1 is KRW1,250 in card and KRW 1,350 in cash, allowing you to get to most places downtown and out to the suburbs. There are 9 subway lines to date in the Seoul subway system. They conveniently connect not only downtown Seoul but Gyeonggi-do and Incheon as well. The subway may be the most dependable form of transportation, but beware of the crowds during rush hour. You can go to other areas by transferring to any of the other lines at specified transfer points. The subway starts running at about 05:30 and stops by 01:00.

- *Subway map: <http://www.inat.fr/metro/seoul/>*

### Bus

There are four types of buses in the city, which are colorized according to the type of city buses: Blue, Green, Red and Yellow.

#### □ *Blue Bus*

This type of buses will operate at higher speeds and access the median bus lane connecting suburban areas to downtown Seoul.

#### □ *Green Bus*

Green buses will be flexibly operated by private bus companies, to connect major subway stations or bus terminals in downtown Seoul.

#### □ *Red Bus*

- The red buses will be express buses designed especially for those commuting between downtown Seoul and the metropolitan area.

- This bus will circle downtown Seoul and stop at stations for blue buses and major railway stations, as well as business, tourist and shopping areas.

These buses usually come fairly often and stop frequently on the way. Buses start running about 05:00 and stop by midnight.

※ Free transfer

As of July 2004, a transportation card can be used to get fare discounts when transferring from a subway to a bus, or vice versa. Free transfer within 30 minutes(subway ↔ bus, bus ↔ bus) available when the card is tapped on the ticket checkpoint both on way in and out of the station/bus. The free transfer privilege is not available between two same number buses.

### Taxi

Taxis are plentiful, clean, safe, and inexpensive in Korea. There are taxi stands in most busy city areas, and taxis can also be hailed on the streets.

- Regular taxi : The fare system is based on both distance and time. Fares are KRW 3,000 for the first 2 kilometers and KRW 100 for each additional 144 meters. If the taxi is going less than 15 kilometers per hour, an additional charge of KRW 100 per 35 seconds is added to the fare.

### Express bus<sup>5</sup>

This is a specially designed bus that maintains a certain speed so that it can efficiently take you to a terminal in each region in Korea. As it used for a long distance of traveling, it provides much comfort for passengers. It should have such facilities as air-conditioning, a broadcasting system and broadcasting devices inside a car as well as reclining seats and seat belts. The fare varies according to your destination. You may also use a super express or 'Udeung' bus. The fare is a little more expensive but it offers a greater level of comfort.

### **Train / KTX**

Passenger trains, operated by the Korean National Railroad, are fast, reliable, and moderately priced. The trains run on a strict schedule and are not affected by traffic congestion during holiday seasons. An extensive railway network covers almost every part of the nation.

There are three classes of trains: KTX(Super express), Saemaul-ho(Express), and Mugunghwa-ho(Local).

The fastest and most comfortable service, and consequently the most expensive, is offered by the Saemaul-ho and KTX. The coaches are well heated in winter and air-conditioned in summer, with comfortable seating and plenty of leg room.

These trains also have sleeping compartments. As the trains are full on weekends and holidays, purchasing tickets at least two weeks in advance is advisable. Tickets can be purchased at railroad stations or travel agencies.

#### ※ Transportation Card

While traveling in Seoul, you may have been intrigued by the beeping sounds as people touched a sensor with their wallets, bags or even mobile phone rings when getting on or off the bus or subway.

The biggest advantage of a T-money card is its easy portability and discount benefits. The base transit fare for a T-money card user is KRW 1,050 versus the KRW 1,150 cash fare. T-money users can also save more money by benefiting from a fare discount for transfers. Transportation card can be used for taxi fare as well.

## 7 Where to Shop

Seoul is generally considered the best place for shopping in Korea. You can easily find well-made goods at great prices everywhere you go. The following are some of the best, well-known places to look.

### Myeong-dong

A first-rate shopping and entertainment area, Myeong-dong, is noted for its food and entertainment establishments frequented by people of all ages. Located in downtown Seoul, there are four major department stores staffed by clerks who can speak either English or Japanese. Many of the city's top brand stores line the narrow alleys of Myeong-dong. Major fashion designers also have boutiques here and foreign brand name products and shoe stores can be found in abundance. Financial institutions such as banks and investment companies are also located along Myeong-dong. To get there, all you need do is take the blue line, line number 4, and ride to Myeong-dong Station. You can enter the main street of Myeong-dong if you come out of exit 6,7.

### Migliore

Migliore is a large shopping complex, and most of the shops in this building deal with garments. The location is very convenient because it is directly connected to Myeong-dong subway station (the blue line). The products here always reflect the latest fashion trends while prices are often even lower than other shops in Seoul. Many stores in Migliore do not sell at fixed prices so you can bargain with store owners to lower prices. It will be an exciting and

culturally eye-opening experience!

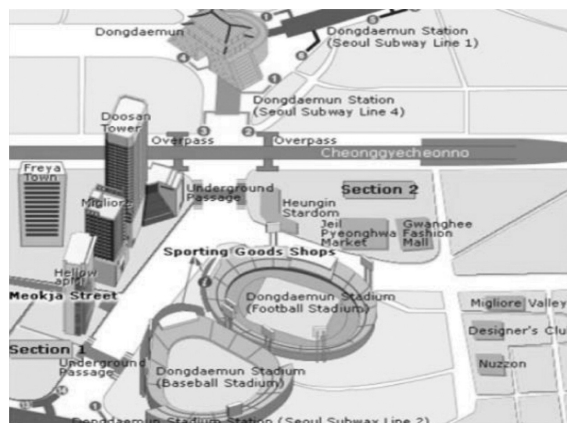

## Dongdaemun Market

This huge shopping area near Dongdaemun (Great East Gate) and Dongdaemun Stadium is roughly divided into two sections. The northern area has more traditional stores, specializing in clothes, vibrantly colored fabrics, and wedding gifts. Many newlyweds will come here to do all the shopping for their new homes.

The southern area has more modern buildings, targeting younger shoppers with trendy clothes and fashion accessories. Since most stores are open 24 hours, the area is bustling with shoppers at all hours of the night. You can get to Dongdaemun Market by taking the dark blue line and getting off at Dongdaemun Station, using exit 14. Dongdaemun Station is a complex structure with many exits, so it may take some time to locate the right one. In that case, feel free to ask locals passing by, who can point you in the right direction.

### □ *Map of Dongdaemun Market Area*

## Namdaemun Market

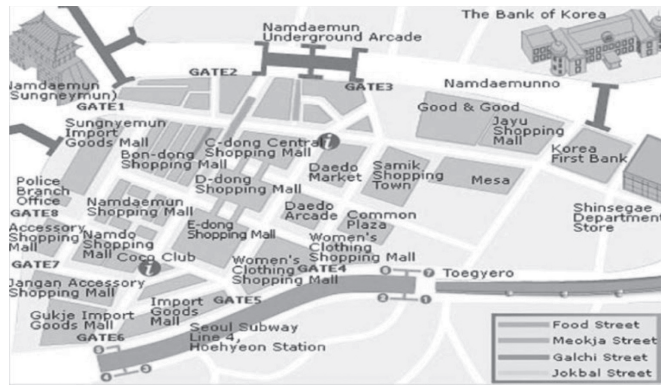

Namdaemun Market, located in the upper-center of Seoul, is the oldest and largest traditional market in Korea, selling everything from children's, men's, and women's clothing, to daily miscellaneous goods, kitchenware and local and imported products. Most shops offer both wholesale and retail prices, which enables visitors to purchase various goods at a very inexpensive price.

Transportation - Subway Line 4, Hoehyeon Station Exit 5

### □ *Map of Namdaemun Market Area*

### COEX

COEX is a convention center with interesting exhibitions, and which also holds various performances and events. In addition, many of the shops, including designer brand clothing shops, convenience stores, and furniture stores, are lined in a row along the both sides of the street of COEX Mall. On weekends, streets in this building are filled with families and lively groups of young people. After shopping, you can have a light meal at the food court or a restaurant in this building. Restaurants are scattered all throughout the complex, in addition to two food courts in the COEX Mall. For transportation, you need to take the green line and ride to Samsung Station, and use exit 6. COEX Mall will be right in front of you.

Transportation - Subway Line 2, Samseong Station Exit No. 5 and No. 6 (Connected to the COEX Mall from Subway station)

## Itaewon

Itaewon is perhaps the most exotic place in Seoul, representing a fusion culture with a distinctive atmosphere. It has many antique and modern furniture shops, plus authentic multi-national restaurants of Indonesian, Afghanistan, Thai, Malaysian, American and Korean cuisine. This area is also famous for its night life, popular bars, and street vendors. Most signboards are written in English, and the area is frequented by many English speaking tourists.

Transportation - Subway Line 6, Itaewon Station Exit #1,2,3 or 4

## Insadong

Insadong and the surrounding area were the residences of Joseon Dynasty (1392-1910) officials, extended royal families, and the yangban aristocratic class. The antique art shops that were established here during the Japanese Colonial Period carried everyday items of the privileged class as these items became antiques in the face of modernity. Since then, Insadong has been home to dozens of art galleries and antique shops. Insadong's narrow alleys branch out into all directions from one main street. Korea's antique shops display and sell quality antiques such as old paintings, ceramics, woodenware, metalware, old furniture and many other items. Galleries in Insadong display and sell modern

art pieces as well as antiques. Exhibitions are held frequently in these galleries and give good chances for Korean artists to gather. Insa Art Center and Gyeongin Art Gallery are famous in Insadong.

The calling cards can be purchased at banks, post offices, shops and bus stop kiosks near the phone booths.

### 8-3. Electricity<sup>7</sup>

Voltage level has been converted to 220V in most buildings. If you are using electrical equipment that is not 220V you will need either a converter or a transformer. Converters are the small devices that you attach directly to the plug. Converters can be used for devices with AC Adapters. To be certain, look closely at your plug and see what voltage ranges are supported. Transformers are larger devices that are used when converters falls short. Converters and transformers are can be bought at any hardware store. There are two types of transformers. The small transformer is cheaper and should sell for about KRW 10,000. The larger transformer is also heavier and more expensive. They range from KRW 25,000 to 30,000. For electronics that run on higher wattage, you will need the larger transformer. Please note that using the wrong proper converter can damage your electronic equipment.

## 8-6. Tips on Cultural Etiquette

Remember that in coming to Korea, you are entering a new culture, which may differ greatly from your own. Cultural blunders and mistakes will be inevitable for newcomers. Here are a few tips to help you get through the first few days.

- Greetings are very important to Koreans. Words of greeting and thanks are usually said with a bow of the head. The depth of the bow depends on the relative seniority of the two speakers.
- Koreans do not appreciate an overly outspoken style, and physical contact between acquaintances is limited to a handshake. However, physical contact among close friends is common. For example, it is not uncommon to see two men walking in the street with their arms around each other's shoulder and young women walking hand-in-hand. Public displays of affection between the sexes, however, are regarded as unseemly.
- Koreans traditionally sit, eat, and sleep on the floor, so shoes are always removed when entering a Korean home. Bare feet are offensive to elderly people, so it is best to wear socks, even in summer, when visiting a family.
- "Going Dutch," though becoming more popular among young people, is not widely practiced in Korea. Be prepared to be either a guest or hos.

## Ten Principles for Improving Clarity and Precision of Written Documents

- 1: Prefer the active voice.
- 2: Don't make nouns out of good, strong "working verbs."
- 3: Be concise. Cut out all excess baggage. Keep your average sentence length under 20 words.
- 4: Be specific. Use concrete terms instead of generalizations.
- 5: Keep related sentence elements together; keep unrelated elements apart.  
Place modifiers as close as possible to the words they are intended to modify.
- 6: Avoid unnecessary shifts of number, tense, subject, voice, or point of view.
- 7: Prefer the simple word to the farfetched, and the right word to the almost right.
- 8: Don't repeat words, phrases, or ideas needlessly.  
But don't hesitate to repeat when the repetition will increase clarity.
- 9: Use parallelism whenever it is appropriate—that is, when you are expressing similar thoughts, make sure you write your sentences so that the elements are in similar or parallel form.  
But do not use parallel structure when expressing thoughts that are not truly similar.
- 10: Arrange your material logically. Always begin with ideas the reader can readily understand.  
If you must present difficult material, go one step at a time. Do not skip any steps.  
Arrange your format to give the reader every possible "handle" on the material.

## eee Campaign

We use eee to achieve our mission – Education,  
Research, Public Service and Culture.

### Electronic

The information revolution is sweeping the world. Advances in technology are transforming many facets of our lives. It is imperative for contemporary organizations to take full advantage of the electronic revolution

But that is not enough.

### English

We must be able to communicate effectively and legitimately.

The language capacity is an important dimension for making a successful e-revolution. Therefore, our school endeavors to master English and become multi-lingual.

### Ethical

There is another issue: technological and communication competencies must be used for the good of society. Many people worry about the moral dimension of the e-revolution. There is indeed a need to guide our information revolution with ethical principles.

*LET'S DO eee TOGETHER!*
