

# The 1<sup>st</sup> International Forum on Implementing Care for Healthy Ageing

The Ambassador Seoul Pullman Hotel Grand Ballroom (2F),  
Seoul, Republic of Korea

20 November 2023

United Nations General Assembly, in 2020, embarked on a transformative journey with the adoption of the UN Decade of Healthy Ageing (2021-2030). This ambitious initiative calls for a collaborative effort across diverse sectors and stakeholders to promote healthy ageing for older people.

At the heart of this endeavor lies the WHO concept of Healthy Ageing, which underscores the importance of maintaining functional ability for well-being in older age and reorienting health and social services towards person-centered and coordinated models of care.

Embracing the continuum of care and services as a holistic approach, this imperative extends to all healthcare and social care settings. The need for Healthy Ageing has never been more evident, as we navigate the complexities of rapid global population ageing and the unmet needs of older people.

To facilitate global-level discussions and ignite collaboration in the implementation of care for healthy ageing, National Health Insurance Service (NHIS) and the World Health Organization are proud to present the 1st International Forum on Implementing Care for Healthy Ageing.

National Health Insurance Service has been working on the forefront of Healthy Ageing, in alignment with the WHO concept, as the single payer of national health insurance and long-term care insurance in the Republic of Korea.

This forum aims to drive forward the global agenda for implementing care for healthy ageing during the UN Decade of Healthy Ageing (2021-2030). By bringing together Member States, international institutions, and stakeholders, we will explore common grounds and opportunities for collaboration.

We will also seek to foster partnerships among stakeholders, setting the stage for a collaborative platform to define the next steps and key priority activities on this critical agenda.

As we confront the challenges and opportunities of healthy ageing, we invite you to join us at this historic event. Let us come together in the vibrant city of Seoul, Republic of Korea to shape a future where the well-being and functional ability of older people are at the forefront of global health priorities.

We look forward to welcoming you to the 1<sup>st</sup> International Forum on Implementing Care for Healthy Ageing.

Yours sincerely,

National Health Insurance Service

World Health Organization
