5	Practice during the semester	Training for KDIS table tennis club members and students that were learning how to play for the first time. Practice was carried out officially every Thursday at 6pm to 8pm though due to the changes in course scheduling for Fall2023, members would also play on any other days as long as they had a counterpart to play with. Biggest challenge this semester sill remains the shortage of quality playing rackets. The funds provided by the school can only get us average quality rackets which are not popular with the students. Then also the good quality rackets are getting old and thus not so conducive to use. We implore the school to consider purchasing for the club some good quality rackets that would last longer and can benefit a big pool of students.	2023-10-12	8
